Professional Experience

Svitla Systems Inc.   **Working remotely**
Senior Frontend Developer   January 2025 — Present
  • Building product UI for Storied. Drove a platform-wide Next.js migration, resolving critical architectural constraints and establishing reusable component patterns adopted across the team.
  • Translated Figma designs into accessible, production-ready React components with strong attention to design system consistency and performance.
  • Grew into cross-team leadership — conducting code reviews, setting frontend standards, and guiding architecture — while partnering with backend and QA to improve performance and end-user experience.

Middle Frontend Developer   August 2024 — January 2025
  • Led the migration of a legacy course platform to a modern React stack, ensuring seamless transition of content, functionality, and user experience.
  • Collaborated with QA to maintain high standards of design accuracy, functionality, and audio quality throughout the migration.
  • Built and enhanced internal developer tools, streamlining workflows and improving team productivity.

SupportYourApp   **Working remotely**
Technical Support Consultant   August 2023 — August 2024
  • Resolved complex technical issues for software products, achieving a 95% customer satisfaction score across email and phone support.
  • Applied HTML, CSS, and JavaScript expertise to debug customer-facing frontend and backend issues, reducing resolution times.
  • Identified recurring user pain points and communicated findings to product teams, contributing to improved product usability.

Freelance Activity   **Argentina**
Frontend React Developer   March 2022 — Present
  • Built responsive web applications for local businesses across hospitality, services, and real estate, from requirements through deployment.
  • Delivered production-ready interfaces using React, Next.js, TypeScript, and Tailwind CSS, prioritizing performance and accessibility.
